

Innovation from the Professionals

Sunflower HEARTS

The ultimate wild bird feed, high energy, husk free, the only hearts produced in the UK.
All stocks freshly produced.

MIXING BLACKS

Including approximately 20% whole hearts - less mess - with over 50% oil content, high energy, a feed of real value.

Kibbled HEARTS

With the same feed value as hearts, kibbled is more accessible for the birds using less energy to feed and minimal waste.

All these products are UK produced at our Suffolk processing plant and offer you the flexibility of purchasing the exact quantity for prompt delivery from freshly produced stocks - available in Bulk / Bulk Bags / 20 Kilo Bags.
